Forecast for Saturday 01 Jul 2023

Weather: A cloudy start with residual outbreaks of light rain and drizzle clearing east around dawn. The cloud will soon break and lift, leading to a mixture of sunny spells and showers in the morning. These will be mostly light but rather frequent, particularly in western parts, albeit perhaps becoming more scattered in the afternoon. It'll be a windy day though.

Chance of cloud-free hill tops above 600m: 20% becoming 95% or greater.

Low Cloud and visibility: Very poor at height initially, with cloud as low as 450m, but becoming gradually good or very good, with only temporary reductions in and around any showers. Some generally uninterrupted panoramic views in the late afternoon.
